These four strategies can help you with your vaccination.

**COMFORT**
Find ways to get comfortable.

- Have a snack before and after.
- Wear a top that lets your upper arm be reached easily.
- Bring an item that gives you comfort.
- Relax your arm so that it is loose or jiggly.
- Squeeze your knees together if you feel faint or dizzy.

**ASK**
Ask questions to be prepared.

- What will happen.
- What it will feel like.
- Bringing a friend or family member.
- Having privacy.
- A numbing cream to dull the pain.*

**RELAX**
Keep yourself calm.

- Take slow deep breaths into your belly, breathing in through your nose and out through your mouth.
- Do some positive self-talk (tell yourself you can handle this).
- Have someone with you to support you.
- Have privacy.

**DISTRACT**
Shift your attention to something else.

- Talk to someone.
- Play a game or watch a video on your phone.
- Read a book or magazine.
- Listen to music.
- Allow yourself to daydream about fun things.

*You may need to purchase and apply the numbing cream 20 to 60 minutes prior to your appointment.

---

**HOW TO GET COMFORTABLE**
**YOU CAN ASK ABOUT**
**HOW TO RELAX**
**HOW TO DISTRACT YOURSELF**

---

**WHAT WILL YOU ASK?**

**WHAT WILL YOU DO TO RELAX?**

**WHAT DISTRACTIONS WILL YOU USE?**
